About Us

For many organizations, training can be stressful and time-consuming. Developing a single training course that is educational and interesting and follows federal and state requirements can take more than 40 hours of work. And then, once the course is developed, it must be scheduled, delivered to employees, and properly documented. That is valuable time that many organizations just don't have.

But that's where TrainingToday® can help!

TrainingToday has provided online education programs for employees and supervisors for more than 20 years. We offer an extensive course library on hundreds of workplace topics, engaging and interactive presentations, and valuable training tools. We're also mobile-friendly, so you can train anywhere, anytime.

And now we are offering more content for one low price with our All-Access Libraries!

According to a Udemy reach report, 42% of employees say learning and development is the most important benefit when deciding where to work, followed by health insurance. What better way to keep employees engaged and provide added benefits than to provide them with ample opportunities for professional growth through training initiatives?

Our content, developed by our in-house experts, is pertinent and contributive and will help keep you compliant. The All-Access Library content is SCORM-compliant and can be delivered via our LMS or yours!

Let TrainingToday and our all-access training libraries help transform the way you train!

A Quick Look ...

1.2k Organizations Served

TrainingToday is the go-to source for online education programs for employees and supervisors.

600+ Courses

They are also SCORM-, AICC-, and Tin Can-compliant, and if you need courses on an LMS, we have that too!

40+ Years in Business

We've been around this long for a reason! See for yourself how we can transform the way you train.

Quality Content

Our team of in-house SMEs/attorneys creates content for you that is timely, informative, and creative.

Course Features Guide

Interactive

Courses are interactive, with various scenarios and knowledge checks throughout, to keep the learner engaged. The courses are also professionally voiced throughout.

Compliant

As regulations change, you can be sure that we will update a course as quickly as possible to ensure that your training is always up to date and compliant.

Assessments

Questions come in a variety of formats and are strategically placed throughout the course to ensure learner understanding. These include both shorter knowledge checks throughout the course and a longer final quiz, which is scored and sent to the administrator.

Certificates of Completion

Upon successfully completing a course and taking the final quiz with a passing score, learners will automatically receive a certificate of completion.

Resources

Learners can download or print handouts at their convenience. Some courses also include other ancillary resources, like worksheets, reference materials, or glossary terms.

Transcripts

A copy of the narration is included in each course for learners who prefer to read along.

Ask the Expert

As regulations require, some courses include an ask the expert feature. For the duration of the course, learners can send questions directly to our in-house experts. Our experts will respond within 2–3 business days (or faster)!

All-Access: Human Resources/Workplace Harassment

Are your hiring practices as good as they can be? How are you shielding your organization from harassment claims? Are you prepared to discipline your employees for inappropriate behavior? Are you confident in your overtime calculations? It's crucial for you to have the answers to these questions and many more so you can keep your employees productive and your organization in compliance. And that's where TrainingToday's All-Access: Human Resources libraries can help. With almost 250 courses, our human resource and workplace harassment courses include titles to help train on the Family and Medical Leave Act (FMLA), HIPAA, national and state-specific workplace harassment training, and so much more!

All-Access: Environmental, Health, and Safety

Do you fully understand what your responsibilities are when it comes to compliance with national EPA, OSHA, and other federal and state safety rules and regulations? For many organizations, getting the information and tools you need to stay on track and in compliance is time-consuming and expensive. TrainingToday's Environment, Health, and Safety libraries include everything you need to increase awareness of safety and environmental best practices, achieve compliance with national OSHA and state workplace rules and regulations, and create the safest-possible environment for employees. With over 300 courses, our workplace safety online training courses include titles to help train on OSHA safety, environmental compliance, transportation and construction safety, and so much more!
