Safety

Business
Skills

Hospitality

Education

Sales and
Services

Healthcare

Our LMS provides the following capabilities:

- **NEW!** Functionality for remote and nonoffice workers
- **NEW!** Signature check box for mandatory training compliance
- **NEW!** Admin dashboard with customizable widgets for a truly tailored experience
- **NEW!** Full “virtual classroom” course assignment, tracking, and reporting by employee, course list, location, division, and department
- **NEW!** Scheduled reporting capabilities, in addition to automatic reports and reminders
- **NEW!** Students can browse and request additional training
- **NEW!** Badges and contests to increase engagement
- **NEW!** Completion Wizard allows scores and durations to be updated as needed
- **NEW!** Transcript Management, which provides admins with the ability to view, edit, or add outside events, certificates, and records to a user's transcript
- White labeling capabilities
- Individual log-ins for each employee
- Easy start-up, with complete implementation support
- Quizzes built into every course
- Automatically generated certificates of completion
- An online calendar for creating and maintaining your training plan

Your All-in-One Solution for Superior Training

Through **TrainingToday**, you will have the ability to easily administer courses, track course status, and document participant progress. Managers can easily stay aware of employees' training status, and your organization will be able to demonstrate that important policies and procedures have been communicated and understood by all. Plus, you have the ability to customize course content to meet your specific business needs.

What makes TrainingToday different?

1. Our team of **in-house regulatory experts** are standing by to update course content so you can be confident in your training compliance.
2. Our award-winning content is available on our fully integrated and updated platform TrainingToday; our **SCORM-compliant courses** can also be uploaded onto your own LMS.
3. Our **extensive portfolio of courses** means that you can provide training for every department in your organization in one system. From leadership development to employment law training to industry-specific safety compliance, we've got a library to meet your needs.
